At LWC we aim to establish a foundation upon which all pupils feel able to build a full and happy life. We want them to leave school with a better understanding of who they are, their strengths, their moral values and their aspirations. To achieve this we need to equip pupils with emotional intelligence and literacy, a 'Growth Mindset' and a schooling in the characteristics that allow a person to be a good decent member of society. We have grouped these three elements together and called it our character education programme.

Our primary aim is that character be 'taught' in addition to being 'caught'. Every aspect of the delivery of the curriculum, co-curriculum and our pastoral and spiritual provision endeavours to imbue pupils with the following 'moral' character attributes: fairness, generosity, empathy, gratitude, loyalty and courage. Learning and achievement will be rewarded, emphasising perseverance, self-control, engagement, optimism, curiosity and creativity. These 'performance' character attributes are taught, monitored and developed in all areas of school life. We believe that cognitive ability is not the primary determining factor in the health, happiness, prosperity and positive contribution to society of our pupils. By promoting character education, we give them all the best chance of realising their full potential.

We offer:

- a safe and secure environment
- a high level of pastoral care
- a flexible approach to boarding
- excellent exam results, which consistently exceed individual expectations
- outstanding facilities for both academic and extracurricular activities
- an unpretentious, caring and happy atmosphere.

## International students

We have a small number of pupils from overseas at the College and we welcome the extra dimension they bring to school life. English as an additional language (EAL) lessons are given for students for whom English is not their first language. Assistance with transport to and from airports is provided.

## Sixth form

A number of students join the College at sixth-form level, where we offer a wide range of subjects. A strong tutorial system and careers provision support students as they prepare for the challenges of further education and adult life. We have a very strong record of students gaining places at their first-choice university.

## Scholarships

We offer the following scholarships: academic, art, all-rounder, performing arts (music, drama and dance) and good character. Please contact us for further details.

## Location

LWC is set in a large rural campus on the north Hampshire/Surrey border. It is one hour from London, and within quick and easy reach of Heathrow and Gatwick Airports.

*Lord Wandsworth College offers the best of both worlds – a wonderful education and a friendship infrastructure that will last you a lifetime.*
